Daniel L. Shores

Associate

Mr. Shores' practice is focused on patent litigation covering various technological fields ranging from materials science to pharmaceutical products. Representative litigations include defending against claims of patent infringement of layered glass; asserting patent infringement claims covering methods for redeeming points online; defending against claims of inventorship for pharmaceutical patent covering drug that treats hepatitis B; asserting breach of contract claims regarding the exclusive rights to manufacture and sell genetically modified cotton seed in Brazil; defending generic pharmaceutical companies in actions arising under the Hatch-Waxman Act involving patents covering drugs that treat hypertension and cancer.
