

Our Reach

The convergence of intellectual property, litigation, and technology is global in scope. As a forward-thinking, client-focused law firm, Rothwell Figg delivers the borderless representation, cultural insight, critical relationships, and extraordinary service needed to ensure each client receives high-quality legal counsel everywhere they want to do business.

Rothwell Figg works with businesses and individual clients from across the globe -- in the Americas/LAC (Latin America and the Caribbean), Asia-Pacific, and EMEA (Europe, Middle East, and Africa) -- that seek to own, leverage, and defend their intellectual property and technology.

Additionally, our lawyers, supported by the firm's extensive network of international partners, deliver strategic advice and effective solutions to companies seeking to expand into or across markets. Partnering with law firms around the world -- from South Africa to Canada, from Australia to Norway -- we represent our clients' interests in every corner of the globe. To help us, the firm is active in Consulegis, the International Trademark Association (INTA), and the International Network of Boutique Law Firms (INBLF).

Consulegis is a leading international network of high quality mid-sized and boutique law firms, consulting firms, and in-house counsel that provides members and their clients with access to the knowledge, experience, skills, and resources needed to thrive on a global scale. Our participation in Consulegis allows us to provide clients with an advisory experience that incorporates not only sound legal advice from top firms ranked in Chambers and the Legal 500, but also access to recognized accounting, tax, consulting, and M&A firms. Collaboration, strong ethics, a deep respect for confidentiality, mutual trust, honesty, and friendship are Consulegis' core values. New members are considered through recommendation and all candidates are carefully vetted before they are invited to join the network.

For more than 30 years Rothwell Figg has been a member of INTA, a global association of brand owners and professionals dedicated to supporting trademarks and complementary intellectual property to foster consumer trust, economic growth, and innovation, and committed to building a better society through brands. The firm is an active member of the community, made up of nearly 6,500 organizations from 185 countries. The organizations represent more than 34,350 professionals, including major corporations, small- and medium-sized enterprises, law firms, and nonprofits.

INBLF is a seamless global network of highly credentialed law firms across the United States, Canada, and internationally that ensures continuous access to world class legal advisors in all jurisdictions on all continents. Firm clients value our established relationships with leading INBLF attorneys practicing in a wide range of specialized disciplines, across multiple time zones, who are fluent in the legal traditions and cultures of their region and country of origin. With more than 300 member firms who have earned stellar reputations in major domestic and foreign capitals and key business centers, INBLF delivers convenient access to the knowledge and experience of exceptionally credentialed advisors who are considered legal and industry leaders in their respective fields and jurisdictions.

Our participation in these proven networks allows our firm to function with a global team of counsellors on international transactions, to provide critical insight on important legal matters, and to resolve complex disputes that cross borders with ease. The result for our clients is superior advice that is comprehensive in scope, international in scale, and executed with the confidence and multi-dimensional approach to problem solving they expect from their top legal advisors.
