Partner Sharon Crane will moderate a webinar panel discussion on Wednesday, April 22, 2020, at 3 PM Central European Time, titled "COVID-19 -- Life Under Lockdown." The session is open to all interested parties, FICPI members or not.

The webinar, organized by the Fédération Internationale des Conseils en Propriété Intellectuelle (FICPI), is the first in a series that will be part of FICPI's resource bank designed to help members manage their practice while facing the current global pandemic.

Sharon will speak to attorneys from three countries - Italy, South Korea, and China - who have been living under the most stringent or longest restrictions to give tips and share recommendations, including:

- The changes made to working practices in the office;
- Their experience and tips for working from home; and
- Keeping positive and motivating staff during a crisis.

There will be the opportunity to ask questions throughout this interactive session.
