

James Hastings and Jenny Colgate at Third Digital Health Symposium at United Nations General Assembly

Speaking Engagement
New York, New York
9.26.23

Of Counsel James Hastings and partner Jenny Colgate will participate in the Third Digital Health Symposium at United Nations General Assembly 78 taking place Tuesday, September 26, 2023, at 10:30 am EDT. James will be the convener at the event and Jenny Colgate will act as a panelist.

Presented by Fordham University, the Global Healthcare Innovation Management Center of the Gabelli School of Business, and the United Nations, The Digital Health Innovation Divide will bring together global health leaders in a unique role-play simulation that looks at what happens when promising digital health technologies are faced with competing public policy and private-sector interests. See how panelists handle complex ethical, business, and health equity and access issues regarding a hypothetical, at-home, patient monitoring device that can revolutionize early cancer-prevention and treatment. While the innovation could lead to faster, better, and cheaper global health outcomes, find out what may be the obstacles to achieving these desirable goals.

The event is free of charge and open to the public. To learn more, and to register, please visit the event page.
