

Rothwell Figg Attorneys Named Among the World's Leading Patent Professionals

Accolades & Honors
6.22.15

Rothwell Figg attorneys E. Anthony Figg ("Tony"), Steven Lieberman, Joseph Hynds, Martin Zoltick, R. Danny Huntington, and Sharon Davis were named in the 2015 edition of Intellectual Asset Management (IAM) Patent 1000: The World's Leading Patent Professionals - a unique guide that identifies the top patent practitioners in key jurisdictions around the globe. The firm also was mentioned as "one of the most respected boutiques in DC," with a "reputation for excellence" that extends nationwide.

The IAM Patent 1000 has fast become the definitive directory exclusively dedicated to identifying the world's leading patent services providers. The extensive research process for this guide was conducted over several months by a team of full-time analysts, and involved more than 1,500 interviews with patent specialists across the globe. Legal and attorney firms and individual practitioners qualify for inclusion in the IAM Patent 1000 upon receiving sufficient positive feedback from market sources.

"We are very proud of our attorneys who have been recognized in the IAM Patent 1000, and of the acknowledgement of our firm for its outstanding lawyers and strong practice areas," said Rothwell Figg co-founder, Tony. "We are grateful to our clients for recommending us to IAM as a leader in IP law, and we will continue our tradition of providing our clients with the highest quality legal services."

Tony added, "We extend a special congratulations to Steven Lieberman, who was ranked in IAM's Gold Tier this year thanks to numerous client endorsements."

Nicholas Richardson, research editor for the IAM Patent 1000, explains: "In the world of commerce, patents have become pivotal in driving corporate value and profitability. When it comes to obtaining, enforcing and monetizing these vital commodities, private practice lawyers and patent attorneys play an essential role; selecting the right specialist is of paramount importance.
