Chambers Global Practice Guides provide in-house counsel with expert legal commentary on the main practice areas in key jurisdictions around the world.

The Patent Litigation 2023 guide features 24 jurisdictions and provides the latest information on intellectual property (IP) rights and granting procedures, initiating a patent infringement lawsuit, patent revocation/cancellation, patent remedies, litigation costs, alternative dispute resolution (ADR), and assignment and licensing of IP rights.

Chambers Global Practice Guides are written with clients in mind and enable the business client to identify and compare current legal issues across jurisdictions in a range of business-critical practice areas. The 'Law & Practice' sections provide easily accessible information on navigating the legal system when conducting business in the jurisdiction. Leading lawyers explain local law and practice at key transactional stages and for crucial aspects of doing business.
